

Allowing pop-up windows in the PPAR and the PPMLS Tempo systems.

Have you recently encountered the following problems?

- Creating a CMA Wizard and the report window won't load
- CMA Wizard Window loads but the only verbiage that displays is: **Loading..**
- No Reports from the Report Functions box will load.

Possible Culprits could be:

- Yahoo Toolbar
- Google Toolbar
- Upgrade to Adobe 7.0 or Java updates from Sun have automatically installed the Yahoo Toolbar

Solution: Enable MLS related pop-ups by using a "White-list" technique.

The examples below show how pop-up blocking prevents the CMA Wizard from loading.

To correct the problem if you have the Yahoo Toolbar you need do the following to allow pop-ups on the PPMLS Tempo website.

Click down arrow on the icon that looks like a browser window with a shield overlaid on it.

Once you click on the option it will then say Pop-ups okay and will allow pop-ups from the site which you are browsing.

Other pop-up software that can prevent pop-up windows from loading in the PPAR or the PPMLS Tempo systems are:
Note this list is not all inclusive

Firewalls/Virus Software

- Symantec™ – Norton AntiVirus or Firewall products
- McAfee® – VirusScan or Firewall products
- Zone Labs™ - ZoneAlarm products
- Panda – Virus or Firewall products
